RAIL PEACE IS URGED

COAL ACTION DELAYED

PARTY REVOLT BEGINS

(BY LAWRENCE MARTIN.)

WASHINGTON. — (United Press.)—Senator Borah, of Idaho, is becoming the involuntary center of a third party movement which is beginning to be marked by the insistence of

its demands that Borah step out and lead a political revolt. Letters are pouring into Borah's office from men and women of almost every shade of political opinion, announcing their dissatisfaction with the two old parties and urging Borah to take the lead in unit-

ing the politically restless in the United States under a new organization's banner. The one respect in which all these letters always agree is in the statement that neither the Republican nor Democratic party is longer capable of national leadership.

TIME DIFFERENCE IS CONFUSING

Daylight Saving Expected to Affect Voting, Tuesday

IS SEEN AS A HINDRANCE

Size of Vote Largely Depends on Conditions

That the difference between time used by the city and that governing the operations of the board of elections may result in confusion on election morning is feared by officials of the board.

By edict of the city commission, inhabitants for the most part are governing their comings and goings on a daylight saving schedule. The board of elections, however, works on central standard time, as required by law.

Under the conditions there is bound to be considerable confusion. SEE CUT IN VOTE

The difference in time also threatens to cut down the early morning vote and throw the bulk of the ballots on election officials during late afternoon.

Polls open at 5:30 a. m. Central time, which is 6:30 daylight saving time. As the majority of persons in the city start for their work between 6 and 6:30 o'clock in the morning, it is easy to see the voter will have to hustle to leave home, go to the polls, vote, and get to work on time.

Especially, if there are many voters waiting. Thus the difference in time defeats the object of opening the polls early.

On the other end of the day, 5:30 Central time, closing hour, means 6:30 p. m. by the city clocks.

It is not unusual, election officials say, for the heavy voting to be done in the last hour and a half or two hours before the polls close.

This normal vote, added to the number of voters who lose out in the morning may swamp polling places, it is feared.

Difference in time will affect voting only in Lima. Clocks outside of the city tick in unison with the election board schedule.

Saturday's special registration added less than a dozen new voters to the eligible list. J. M. Madigan, chairman of the board announced.

Voters have another chance to register Monday between the hours of 2:30 and 5:30 p. m., Central time, or 3:30 to 6:30 p. m., daylight saving time. A chance to transfer can be had during the same hours.

A vote of 40 to 50 per cent inside the city is predicted by election officials. There are 70 precincts in the city, and 45 outside.

VOTE IN COUNTRY

Outside the city the farmers' vote may not all get to the polls in fair weather prevails. Many of the farmers are in the midst of threshing or other seasonal work and won't stop for the election.

Threatening weather would mean almost a 100 per cent farm vote, it is believed. But real bad weather on the other hand will be reflected in a very light vote.

Fair weather will mean a heavy women's vote inside the city. Wet weather will cut it square in two, election officials believe.

Monday was spent by candidates in summing up the situation and in making arrangements to get the vote out.

LOVE JUDGE

Mrs. Helen Long Rodgers will preside over the Cupid's Court at Hamilton, N. J., where mates are sought for lonely men and women. The jury to decide any question of the heart will be composed of three men and three women.

2 ESCAPE UNHURT IN CAR CRASH

Interurban Hurls Loaded Motor Truck Into Ditch

COLUMBUS GROVE.—(Special.) Adrian Lugibihl, 23, proprietor of the Columbus Grove Brick & Tile factory, and his brother, aged 18, narrowly escaped death, Monday, when a large motor truck Lugibihl was driving was struck by the south-bound car on the Ohio Electric railway, leaving here at 8:09 a. m.

The accident occurred at the Vaughnville road crossing of the Ohio Electric, in the south part of town. The car hit the truck at the rear, throwing the load of tile to the ground and turning the truck upon its side into a four-foot ditch.

Lugibihl and his brother crawled out from beneath the wreckage, unhurt. The front of the interurban was badly damaged and the windows in the front of the car were shattered. Damage to the truck will probably total \$150.

Lugibihl was en route to the country west of here to deliver a load of tile.

The accident occurred at a grade crossing, unprotected by watchman or signals and the car was just rounding a sharp curve, down-grade. View of the tracks for a distance beyond the curve is obscured by a corn field.

Observing motorists have long declared the crossing to be one of the most dangerous in the state, as cars going in both directions have gotten well under way after leaving the station and after crossing to derail before passing over this crossing.

It is said efforts will be made to encourage the railroad company to place signals at this road crossing.

SENATORS BEGIN PROBE OF GASOLINE PRICES

WASHINGTON.—Sweeping investigation into the high gasoline prices prevailing all over the country, opened before a special subcommittee of five senators today.

Headed by Senator McNary, Oregon, acting chairman in the absence of Senator LaFollette, Wisconsin, the committee sought to ascertain if price advances of the past few months were warranted in the face of government figures showing record-breaking oil reserves.

practically worthless as a basis for estimates.

Total primary vote two years ago for gubernatorial candidates was 480,786 of which 349,877 was Republican and 130,909 Democratic.

In the fall election, with women voting the total ballot was over four times as large as in the primary.

Most Republican candidates figure the primary vote this year will total at least 500,000. Democrats predict not less than 400,000 of their

THREE ISSUES TO FORE IN OHIO

Voters Pass on Prohibition, Labor, Progressivism Tomorrow

CAMPAIGNS ARE CLOSED

69 Candidates Retire to Await Verdict of People

COLUMBUS.—(United Press.)—Ohio's 69 candidates for nomination in the state primary tomorrow closed their respective campaigns today and retired to their "front porches" to await the verdict of the voters.

Nine Republicans and three Democrats lead the ticket for gubernatorial nominations.

Three sharply defined issues have been evolved during the long campaign that have been hotly waged during the last few weeks:

- 1—Prohibition.
- 2—Labor.
- 3—Progressivism.

The wet and dry issue has refused stubbornly to remain out of the contest. Two of the 12 governorship candidates are on the avowed liberal end of the question, several others are decidedly dry and the balance have refused to commit themselves.

LABOR QUESTION

The labor question has forced itself upon the campaign with organized labor frankly fighting certain candidates and bitterly opposing others.

The gubernatorial fight has drifted into channels sharply separating progressives from alleged reactionaries. Congressman Charles L. Knight and Dan W. Williams are champions of the cause of progressivism.

Homer Durand is running for the gubernatorial nomination on a platform which in his own words is "wetter than the Pacific."

THOMPSON AGAINST FIELD

Carmel A. Thompson, administration favorite, has received the approval and support of the Anti-Saloon League.

Political observers declared today the election in the governorship nomination had been reduced to Thompson against the field.

His chief aggressive opponents, however, are Congressman Knight and State Representative Williams.

Both former staunch champions of the Roosevelt type of progressivism.

DEMOCRATIC FIGHT

The Democratic fight is split fairly even three ways, between former State Auditor Vic Donahey, supreme court Judge James G. Johnson, and T. J. Duffy, of the state industrial commission.

Donahey was Democratic standard bearer last election and was defeated by present Governor Harry Davis.

Judge Johnson is the man who nominated James M. Cox for president at San Francisco Democratic convention.

Duffy is running on a platform supporting the workmen's compensation law.

Senator Allee Pomerene is the favorite in the Democratic race for senatorial nomination. He is opposed by John J. Lentz, who claims the support of labor.

SENTENCED TO JAIL.

COLUMBUS.—G. W. Moore, vice-president and general manager of the Whitaker-Glesner Co., Portsmouth, was sentenced to 30 days in the county jail on a charge of operating an automobile while intoxicated, and also assessed a fine of \$87.75 on a separate count of reckless operation of the same vehicle by Municipal Judge Berry today.

OWNERS, MINERS IN CONFERENCE

Decision on Ending Strike Deferred Till Wednesday

FULL MEETING IS SOUGHT

Absent Operators to be Invited to Cleveland

CLEVELAND.—(Associated Press.)—Coal operators and union leaders who met here today for a wage conference looking toward ending the soft coal strike, had virtually agreed to ask all absent operators, particularly those of Illinois and Indiana, to join in the conference here on Wednesday.

Operators in other states also will probably be asked to attend for the purpose of reaching wage agreements.

Formal decision to delay any action on the part of the conference now here was scheduled to be taken this afternoon at the first joint conference of the miners and operators. Meanwhile the conference was expected to mark time until Wednesday but the operators here had agreed to the proposal made by union officials, to ask other operators to join the conference.

While only a minority of the operators in the central competitive field had reached here today to attend the conference, both they and the union officials seemed confident that practically all the Illinois and Indiana operators would agree to participate in the conference Wednesday. A big majority of the Ohio operators were already here and some were expected to arrive from western states.

CONFERENCE OPENS

CLEVELAND.—(United Press.)—Coal operators and leaders of the striking miners met here today in an effort to reach a wage agreement and end the walkout in the central competitive field.

John L. Lewis, czar of the miners, was optimistic and hopeful that an agreement would be reached. Operators also expected an early settlement.

Both sides guarded their plans carefully as the conference is predicted to be the hub around which the nation-wide walkout effective since April 1, will be terminated.

Every word John L. Lewis uttered, was taken down by his personal stenographer. The miner czar is guarding against being misquoted.

Operators declined to discuss the pay-wow. Members of the two factions barely nodded to each other.

ESTIMATE REPRESENTATION

A conservative estimate today was that \$9,000,000 of the 207,000,000 tons of coal produced annually by the central competitive field is represented.

This estimate based on 1918 figures included:

Seventy-five per cent of the 46,000,000 tons in Ohio; fifteen per cent of the 41,000,000 tons of western Pennsylvania; ten per cent of the 30,000,000 tons of Indiana and 20 per cent of the 30,000,000 tons of Illinois.

SETTLEMENT INDICATIONS

Indications point to an early settlement of the dispute. They are:

1—Ohio operators point to the fact that in the past, when a single large employer signed a scale in a district, the remainder of the operators in the district usually signed.

The Ohio operators are certain to make some agreement with the miners.

2—That the operators of Ohio will amass fortunes at the expense of insurgents of the other states if the latter fail to get in line. It is pointed out that even if a nation-wide settlement is made immediately there will be a heavy demand for coal for several months, because of the depleted stocks of plants and public utilities. Not to sign will mean that insurgents who have held out for agreement at the mines will continue to have idle mines on their hands when the conservatives, who sign, will thrive.

If an immediate agreement is reached, the next move of the miners leaders will be to take it around to other operators throughout the country and sign up with as many of them as possible.

If they succeed with the majority it will mean a general resumption of bituminous coal mining.

CLARK APPOINTED

Named to Succeed Johnson on Supreme Court Bench

COLUMBUS.—(Associated Press.)—Governor Davis today announced the appointment of George H. Clark of Canton, chairman of the Republican state executive committee, to succeed Justice James G. Johnson of Springfield, on the supreme court bench.

He will serve until next January when the vacancy will be filled by a regularly elected justice.

AUTO TURTLES, 2 ARE INJURED

Third Member of Party Escapes When Car Overturns

One young man, in St. Rita's hospital, another is also seriously injured and a third escaped with bruises and cuts, the result of being pinned beneath an automobile which turned turtle in a ditch half way between Lima and Wapakoneta, Saturday at 8:30 p. m.

They are James Korn, 16, son of Henry Korn, 555 E. Wayne-st., whose legs were badly injured and whose extremities have been placed in a plaster cast; Neal J. Evers, 20, Pearl-st., cigar-maker, scalded from his waist down to his ankles, by escaping hot water from the automobile radiator and Raymond Means, 227 N. West-st., who was slightly cut and bruised.

According to the story told by young Korn, the boys were under the machine for a period of at least ten minutes. Finding themselves in a serious predicament, they wriggled and squirmed until one of them was finally released. He was able to aid the other two.

INJURED BROUGHT HERE

Passing motorists from Cleveland brought the young men to Lima. Korn was removed to St. Rita's hospital. The two other boys were taken to their homes.

The accident occurred at a sharp curve, as the boys were rounding that point in the road.

The machine, which was being driven by Evers, is believed to have become locked, the steering gear refusing to work. A minute later the boys found themselves beneath the overturned car.

Both Korn and Evers will live, according to word from the hospital and from the Evers home, Monday. The young men had gone to Wapakoneta to attend a dance, but deciding later they would not remain for the event, started for their homes here.

TAKES OWN LIFE

Mansfield Newspaper Man Found Dying in Office

MANFIELD.—(Associated Press.)—E. C. Jenkins, 39, part owner and general manager of the Mansfield News, was found shot and dying in his office at the News early this morning. He died shortly after at the hospital. A revolver was found alongside Jenkins when the police arrived. Police declare that it is a case of suicide.

The bullet entered the mouth, taking an upward course and penetrating the brain.

Jenkins came here last March, to become general manager of the publication. He is survived by his wife and two children, now on their vacation in Maine.

Mr. Jenkins' mind is believed to have been affected, tho no motive is known for him taking his life.

He had arrived from New York some time during the night and presumably went direct to his office where he was found this morning in a dying condition by a scrub-woman.

LENTZ TRIAL, AUGUST 28.

SIDNEY—Trial of Henry Lentz, 17, indicted for the murder of his aunt, Mrs. Henry Solman, at the Solman farm home near New Bremen, has been set for August 28.

HARDING PLANS TO END STRIKE

President Requests Men to Return to Work

PROPOSES ARBITRATION

Asks Submission of Dispute to Labor Board

WASHINGTON.—(Associated Press.)—President Harding today called upon striking railroad shopmen to return to work; requested the railroads to assign them to work and asked both the workmen and carriers to submit the disputed question of seniority to the railroad labor board.

The president sent telegrams to B. M. Jewell, head of the railroad shopmen's union, and T. DeWitt Cuyler, chairman of the Association of Railway Executives, outlining the plan which he hoped would result in culmination of the strike.

Harding in his messages asked that both parties to the dispute agree to comply with the decision rendered on seniority by the railroad labor board.

The further statement was made by the president that he was "mindful of the pledge of both the executives and the striking workmen to recognize the validity of all decisions by the railroad labor board." He so pointed out that the question of seniority "which the executives rejected" as outlined recently in a settlement plan proposed by him, "remains in dispute and bars a settlement."

FINAL PROPOSAL

The president's telegrams were made public at the White House at one o'clock after the executive had held another conference with Mr. Jewell and other strike leaders and with Chairman Cummins of the senate interstate commerce committee, who has been in contact with the railroad executives.

The statement that he was "mindful of the pledge of both the executives and the striking workmen to recognize the validity of all decisions by the railroad labor board." He so pointed out that the question of seniority "which the executives rejected" as outlined recently in a settlement plan proposed by him, "remains in dispute and bars a settlement."

STRIKE RIOTS CONTINUE

Leading figures in the railway shopmen's strike were away from Chicago today. B. M. Jewell, head of the railway employees department of the American Federation of Labor, with other strike leaders, was in Washington expecting to resume discussions with President Harding.

For W. Hooper, chairman of the United States railroad board was within easy call while spending a short vacation at Michigan City, Ind.

Scattered incidents of disorder marked the early part of the sixth week of the shopmen's strike.

W. S. McLane, car foreman in the Illinois Central shops at Birmingham, Ala., was kidnapped by armed men, blindfolded and taken by automobile to a woods near Cardiff, Ala., where he was badly beaten.

State authorities in Tennessee were investigating a fire of supposed incendiary origin which yesterday destroyed the freight station of the Louisville and Nashville railroad and twenty cars in the Knoxville yards.

The loss was estimated at \$500,000. Striking shopmen assisted in clearing the tracks following the Mississippi Pacific wreck at Sulphur Springs, Mo., where many persons were killed and injured. The strikers, however, refused to pick up wrecked cars.

CAR STRIKE ENDS

Settlement Reached in Walkout At Chicago

CHICAGO.—(Associated Press.)—Chicago workers today found normal transportation restored after a six-day strike on surface and elevated lines.

Carmen who went on strike last Monday accepted a wage reduction of approximately 12-15 per cent, retained the eight-hour day and former working conditions in an agreement ratified late yesterday.

The company had directed a wage reduction of approximately seven per cent.

FALLS TO DEATH

Girl Plunges Over Cliff in Yosemite Valley

YOSEMITE, Cal.—(Associated Press.)—Miss Elizabeth Jones, 17, daughter of Prof. L. W. Jones, head of the department of chemistry of Princeton University, met a tragic death in Yosemite Valley late yesterday when she slipped and fell over a cliff into the swirling waters of the Merced river.

Miss Jones was with her father, who made a frantic effort to save her and narrowly escaped her fall.

SCHOOL BOARD TO PICK COACHES

New Athletic Heads for Central and South Planned

BEFORE CITY BOARD TUESDAY

Precedent to be Set in Sports During Coming Term

Athletic departments of Lima's two high schools will occupy most of the attention of the board of education at its meeting Tuesday night. Filling of a vacancy created at South high by the resignation of Coach W. H. Roush, and appointment of a coach at Central high are two of the matters slated.

The board will be ready to announce Young's successor, it was announced. The Central high man also will in all probability be decided upon. Coach O. J. Dietrich was given power to seek the best man obtainable.

BOARD PLANS CHANGE
A change in athletic plans proposed by the board of education will give... (text continues)

The new man will specialize on the representative football team, perhaps coach senior field and track athletics and besides do some general coaching, thus leaving junior athletics to Harold Blackburn, the man selected to fill Fred Wallace's place. It is planned.

This arrangement will prevent overlapping and give to Central high the men it requires because of its large size.

At South high one man will be able to handle athletics in the past, it is said. The athletic field is located a few rods away making it possible for students to get in a large amount of noon work, whereas Central scholars have a trip of over a mile to make and few facilities for practicing during extra time.

WILL SET PRECEDENT
The 1922-23 school term will set an athletic precedent here if school authorities carry out their plans of giving scholars a program that will satisfy their huge appetites for sport.

"We are planning to make it the greatest athletic year in the history of the schools, but at no time will we lose sight of the fact that sports are subsidiary to the educational program. Students will be required to be up in their studies as in the past," Homer Hughes, member of the school board said.

It is doubtful whether Superintendent Collins will attend the meeting. He is at the bedside of his father who is critically ill at his home in Pelee.

3 MEN INDICTED

Charged With Defrauding U. S. in War Contracts

WASHINGTON. — (Associated Press.) — Indictments were returned today by the special grand jury investigating alleged war frauds against Elmer C. Morse, former director of sales of the war department; Elmer M. Davis, president of the E. M. Davis Chemical Co. of New York; and Alexander W. Phillips, associated with Davis.

The three men, who all live in New York, were charged in the indictment with having defrauded the government out of more than a million dollars in connection with the sale of the war-built plant of the Old Hickory Powder Co. near Nashville, Tenn.

HIGH-ST WOOD BLOCK
PAVINGS GET COAT OF TAR AND FINE SAND

Traffic on W. High-st. between Main and Elizabeth-sts. was resumed Monday noon. Vaughn Miller, city engineer, having decided the coat of tar was absorbed sufficiently by the wood block pavement to prevent a nuisance being created.

This coating of tar and a covering of fine sand was applied to the wood block street early Sunday morning. The tar fills the cracks and joints in the pavement and makes it waterproof.

When water gets into close contact with the wood block it causes the wood to swell and is apt to bring about bulges in the pavement. By using the tar this danger is obviated, Miller states.

Little or no annoyance to the public is anticipated as the tar has had an opportunity to penetrate the pavement and the sand has taken care of any excess, Miller said.

SHOP WORKER DIES OF LEAKAGE OF THE HEART

John Roeder, 63, of 519 E. Kibby-st., died at his home Sunday at 3:15 p. m., after an illness of a year from leakage of the heart. He was a blacksmith, employed at the shops of the E. & W. Railroad until his health failed.

He is survived by the widow, two sons, Charles and Perry, both of Lima, and two daughters, Mrs. Robert Freytag, Lima, and Mrs. Z. E. King, Akron.

Two brothers, William, of Bath-tup, and Frank of Lima, and two sisters, Mrs. Isaac Roush, Bath-tup, and Mrs. P. J. Watt, Fort Wayne, are left. Roeder was a member of the Loyal Order of Moose of Lima.

Funeral services will be held Wednesday at 10 a. m. at the South Side Church of Christ. Rev. W. H. Baker, pastor, will officiate. Interment in Blue Lick cemetery, Bath-tup.

DAUGHTER BORN
Mr. and Mrs. Leonard Cowhick, 1327 Norwaway, announce the birth of a daughter, at City hospital, August 5.

Anniversary Sale Used

BALLOT STORM SEEN BY TED

Tuesday, primary election day, is scheduled to be fair and cooler. That will be welcome information for most everyone in any manner interested in the election—including the candidates of course.

Thunderstorms this afternoon and tonight is the immediate prospect, according to information forwarded by the forecasters. In any event, the candidates have everything all set for an onslaught to be made by the electorate on the voting places on the morning.

There'll be a lot of disappointment if it is believed that only bad weather conditions will bring about such a state of affairs. However, the nicer the weather, the lighter the vote in the country precincts, as the farmers are busy.

Ted is viewing the storm of ballots that is due Tuesday. If it's an avalanche, he'll take to the cyclone cellar. Yes, Ted's of voting age, thank you. He'll help somebody win and somebody lose in the primary.

MOFFETT IS HELD TO BE INSANE

Akron Wife Murderer May Remain in Prison Here

Edward Moffett, Akron wife murderer, under sentence to be electrocuted August 19, confined at the Lima state hospital, is hopelessly insane, according to a report made to the department of public welfare at Columbus Monday by Dr. Charles Clark, superintendent.

At two months ago Moffett was given a 90-day respite by Governor Davis, who ordered him transferred to the Lima state hospital for observation.

The special examination of the conduct of Moffett in the courthouse and his assistant, Dr. W. H. V. V. V. It is expected that as a result of the finding Governor Davis will commute the death sentence and that Moffett will remain an inmate of the Lima institution.

Such a change is made in the death penalty, it is planned to return Moffett to the prison annex at Columbus some time this week.

PROSPERITY JUST AROUND CORNER

Business Survey Made by Journal of Commerce

NEW YORK. — A telegraphic business survey made by the Journal of Commerce indicates that the leading dry goods merchants of the country agree that prosperity is "just around the corner."

While business has been holding back and while merchants have been unwilling to stock up their shelves or to contract for supplies at any great distance in the future, it is believed that fundamental conditions have so far improved that business is going to be brisk.

Merchants are having no trouble with credits and are able today to obtain all the bank backing they desire. A fair cotton crop is indicated which will be marketed at high prices. This means a brisk fall season for the merchants.

VESSEL DAMAGED

Steamer Limping Into Seattle After Hitting Rock

SAN FRANCISCO, Calif. — (United Press.) — The Admiral Line steamer, J. F. Alexander, was limping into Seattle today, after having run into Cape Rock, 50 miles south of Cape Flattery, on the Washington coast about midnight. The ship was floated an hour later, according to radio messages.

At 5 a. m. the radio reported she was taking water into Number 1 hold. The messages did not indicate any danger.

The vessel was en route from San Francisco to Seattle, carrying scores of passengers. The ship was new and recently brought to the Pacific from the Atlantic.

ROTARIANS ENJOY PROGRAM AT DAVIS J. CABLE FARM

More than 100 members of the Rotary club and their guests enjoyed a picnic and musical at the D. J. Cable "Springside" farm, Monday noon.

A program was given by the Bluffton College Glee club during the noon hour.

Another feature of the program was a selection of solos by Mrs. Ralph Powers, Miami, Fla., a guest of Mrs. Cable. She sang two solos, both of which were well received by the club.

A desire to have more of the summer luncheons held in the open was expressed by Rotarians following the picnic.

JACOB BOLLINGER DIES FROM COMPLICATIONS

Jacob Bollinger, 64, of the B. & O. Railroad shops, died at the home of his son, George Bollinger, in Perry, Pa., Monday at 10 a. m. Death followed an illness of a week from a complication of diseases. He was born in Germany.

Surviving are the son and a daughter, Mrs. Harold Perry, 318 Melrose-av. A brother, John Bollinger, resides in Kossuth.

Funeral services will be held Wednesday at 2 p. m. at the First Reformed church. Rev. T. W. Hoernemann, pastor, will officiate. Interment in Woodlawn.

COAL IS HURRIED TO THIS CITY

Three Cars of Fuel En Route for City Waterworks

TIIEUP BELIEVED AVERTED

Curtailed Street Lighting Accepted Philosophically

Three cars of coal are being hurried toward the city in an attempt to head off a threatened tieup of the waterworks pumping station, it was announced Monday.

This amount of coal was shipped from the West Virginia mines August 1 and ordinarily requires three days to arrive here. With rail conditions as they are, a week may be needed, the cars reaching here Tuesday or Wednesday, G. L. Dick, waterworks engineer, said Monday.

RELIEF PLANNED
Should the coal fail to arrive, it is possible that H. L. Breckenridge, chairman of the chamber of commerce fuel committee, will be able to shunt a quantity of fuel into the plant. In this way a total tieup will be averted.

Lima citizens accepted the first night of reduced street lighting with very good grace. Coal conservation by the city is a good example for other consumers, one merchant pointed out.

While the all night circuits do not throw as much light as is desired in the downtown streets, it is pointed out that the lighting of store windows by merchants will relieve the situation somewhat.

It will not be necessary to continue the abbreviated schedule for more than two weeks, C. A. Bingham, city manager, believes. Should the situation remain critical it will be continued, however.

ASK PRIORITIES
Lima Industries will have their priority affidavits prepared by Monday night and ready for transmission to Columbus, it is believed.

Speed is necessary as a day lost now may mean a week's delay in getting needed coal thru when the situation becomes serious here. To date all plants are running at normal, it is reported.

IMPORTANT LEGISLATION SCHEDULED FOR MEETING OF CITY COMMISSIONERS

A number of important bits of legislation are scheduled to go before the city commissioners when they meet Monday night.

An ordinance appropriating \$8,000 for the adequate insurance of city property and other asking for \$1,300 for a billing machine for the waterworks department, will be introduced.

Legislation on relief sewer project No. 3 and on lateral sewer project No. 15 are scheduled to appear if certain engineering details can be cleared up in time.

A license for the proper regulation of peddlers and solicitors of certain types is in process of formation and should be ready for consideration by the commission.

It is also possible that a report will be ready regarding the progress of being made in the negotiations with the Ohio Power Co. and D. J. Cable relative to power and street railway franchises.

These interests have requested that the commission take some action prior to the sale of the Ohio Electric property August 15. Only two members of the commission will be held before the sale.

SUIT DISMISSED

Knight Has Right to Witness, However, Court Holds

CINCINNATI. — (Associated Press.) — C. L. Knight, of Akron, Republican candidate for the nomination for governor, has a right to have witnesses and challengers in the polling places under a decision handed down in common pleas court here today.

At the same time the court dismissed the suit filed by Knight to compel the local board of elections to allow the judges of elections in each precinct to permit him to name a witness and challenger. The court held, however, that the statute providing for application by a party for appointment of witnesses and challengers, referred only to general elections. In primary elections, he held that each candidate for the office of the judges of elections has a right to name one witness and one challenger, who must be admitted to the polling place in each precinct by the judges of election on application of the controlling committee of such candidates.

Attorney Robert Alcorn, representing Knight, said that he regarded the decision as a victory, notwithstanding the dismissal of his suit for mandamus.

COUNTY COMMISSIONERS WILL NOT INTERFERE WITH CANDIDATE CARDS

County commissioners will not order pictures in the courthouse galleries removed after primary election is over, Commissioner A. J. Gray declared Monday.

"Personally," he said, "I don't care how long candidates' pictures stay up. They can't bother anyone as far as I can see."

Gray is a candidate for re-election, which may account in a measure for his liberality.

Destruction of candidates' pictures, one state highway has been ordered by the highway department following primary day.

Candidates working without a bill poster's license are liable to arrest in Lima.

The commissioners, however, are not going to harass them.

The only ruling they may make is that it is up to the janitor to take down the pictures of defeated candidates if they are to come down.

Movie Star Hurt In Train Crash

VICTOR, Idaho. — (Associated Press.) — Mary Miles Minter, motion picture actress, was thrown into a window in the vestibule of her private railroad car by the jar of a switch engine here yesterday and received a severe cut on her left arm and numerous scratches and bruises. She also received severe bruises about the head; Patricia Palmer received possible internal injuries and Viola Daniels was considerably bruised. All of the 25 in the party were badly shaken up.

The actors were waiting to start their rail journey to Los Angeles after spending six weeks in Jackson Hole on location.

WETS CONTINUE TO HOLD GAINS

New Figures Given in Literary Digest Poll

NEW YORK. — (Special.) — What the Literary Digest regards as one of the outstanding features of the nation-wide poll which it is conducting on prohibition is the fact that from the very first group of ballots returned to the total of 480,000 votes now in hand, the relative strength of the wet, moist and dry factions has been maintained with but negligible variations.

On the basis of 480,330 votes this is the distribution:

Those in favor of the strict enforcement of the Volstead act and the eighteenth amendment, 151,704. Those in favor of a modification of the Volstead act to permit light wines and beer, 190,864. Those in favor of repealing the prohibition amendment, 101,476.

The Literary Digest also announced that its poll on the question of a soldiers and sailors' bonus shows that 233,613 are in favor of a bonus number 233,613, while its opponents total 241,440.

The returns on the prohibition question, says the Digest, now represent nearly every section of the country.

The Middle West states show these results for the dry, moist and wet groups respectively:

Ohio—14,955, 11,955, 5,469. Indiana—9,345, 7,152, 3,083. Illinois—16,639, 19,229, 10,841. Kentucky—1,264, 980, 721. West Virginia—859, 921, 320. Michigan—7,627, 7,154, —2,603. Tennessee—42, 17, 10.

The Digest reports that factory polls continue to show a predominance of the dry element. A poll in a large manufacturing chemists concern in Detroit shows:

For enforcement, 218. For modification, 1,081. For repeal, 211.

HARD FIGHT ON IN PUTNAM-CO

Democrats Wage Fierce Battles for Primary Preference

OTTAWA. — (Special.) — On the eve of the August primaries, in Putnam-co., every indication points to the belief the contest will be hard fought.

Gilbert W. Fawcett, candidate for re-nomination for prosecuting attorney, is seeking renomination on his record of attempting to clean up the county and alleged boot-leggers. He is opposed in his own party ranks by H. P. Eastman, Democrat, J. S. Ogan is the Republican candidate.

Nick Miller, deputy sheriff, is seeking nomination. Miller is contesting the nomination with two other candidates in his own party, Nick Back and Fred H. Elwood. Democrats Roy McCullough is the Republican candidate.

John T. Mallow, Democrat, and assistant to Fawcett in his desire to clean up the county, is seeking nomination for county surveyor. Cort McDowell, Democrat, is contesting the nomination with Elwood. Republicans have no candidate.

Other candidates to be voted upon at the primaries are:

For treasurer, Frank H. Kracht, Albert Kahle, H. W. Little and Floyd Evans, Democrats, and D. R. Hinkle, Republican, for re-nomination; for clerk, George G. Gieseler and J. E. Roose, Democrats, and W. S. Higgins, Republican; for clerk of courts, Harry Lee, Joseph T. Deters and Forest Henry, Democrats, and George Frick, Republican, for recorder, J. W. Heckman, Democrat, for re-nomination, and J. E. Beery, Republican, for county commissioner.

For re-nomination, Frank Pahl, H. H. Stuber and J. Herman Becker, Democrats, and R. W. Troyer, Republican, for judge of court of appeals.

George Fritz, Democrat, for coroner, Dr. A. F. Schieley, Democrat, with no opposition on the Republican side.

MAN'S LEG FOUND

Member in Sack Presents Cincinnati With Mystery

CINCINNATI. — (Associated Press.) — Search was being conducted today along the Ohio river here by police for possible clues that may lead to the solving of a mystery attached to the finding of a man's leg, hacked off above the knee, in a gunny sack, yesterday.

Men and boys in boats looked along the shore below the place where the find was made in the belief that other portions of the body would be recovered, while others searched the bank above the spot to ascertain if there was anything on the shore that would indicate where the sack or sacks had been dumped into the river.

Certain discoloration marks on the foot were regarded as having been the cause of the amputation, but police said that the appearance of the foot was due neither to gangrene nor to the action of water. Physicians said that the foot appeared as tho it has seared with hot iron.

WHERE THE MAILMAN IS A WOMAN

Everyone waits for the mailman in East Syracuse, N. Y., since women have invaded another field of labor long considered man's alone. Here's Miss Mary Doyle making her rounds.

ALLIED LEADERS IN CONFERENCE

Attempt to Save Europe from Financial Chaos

FOUR NATIONS REPRESENTED

Pessimism is Apparent as Political Chiefs Meet

(BY LLOYD ALLEN)

LONDON. — (United Press.) — Europe, stricken with financial and political ills, went on the operating table at 10 Downing-st. today.

Allied leaders, face to face with the most critical situation since the war, met at the call of Premier Lloyd George. The conference of the premiers is regarded as the most important since the Versailles peace treaty.

Primary purpose of the conference is to find a solution to the situation caused by financial chaos in Europe. The crisis is declared by statesmen to be the direct result and outcome of the war.

LEADERS PESSIMISTIC
Pessimism was apparent, as the political leaders of England, France, Belgium and Italy went into conference. Even the most optimistic doubted whether this meeting would result directly in remedial measures.

Fraught with dangers to the success of the conference is the situation caused by the action of Premier Poincare in starting reprisals in Alsace-Lorraine because the Germans refused to promise payment of \$1,000,000, in also was noted.

France in taking this step, acted independently of the allies. Lloyd George and Poincare stand directly opposed to each in the matter of dealing with the German problem. England is willing and thinks it absolutely necessary for the stability of Europe to be lenient with Germany and to grant a moratorium on reparations payments.

France's attitude is one of severity toward Germany. The best she will concede, it was believed, is a short moratorium, which in the British view, would not remedy the situation to any great extent.

WAKENED UP
The discussion of war debts is another subject which will engage the old world statesmen. Airing of the proposal of Great Britain that its allied debtors make partial payments of war obligations so that England may pay the United States is bound to come, observers believed.

Besides Lloyd George, the British delegation included Lord Curzon, foreign minister, Sir Robert Horne, chancellor of the exchequer, Sir John Chamberlain, government leader in the commons, and Sir Worthington Evans, minister of war. Premier Poincare and Count De Lasteyrie, finance minister, represented France. Premier Jasper and Finance Minister Theunis came from Belgium and Foreign Minister Schanze and Finance Minister Paratore from Italy.

Altho the United States is not to participate in the deliberations, Ambassador George Harvey is to watch the conference.

It was understood that Lloyd George would advocate a moratorium for Germany until 1924, but it is likely that he would accept a compromise of a moratorium until the end of the year if he can persuade Poincare to temporarily abandon reprisals started against Germany.

ABRAMS' BICYCLE IS STOLEN THIRD TIME

Clarence Abrams, 712 E. Kibby-st., holds the record for having his bicycle stolen, police declare.

For a third time in recent weeks, Abrams reported to headquarters Sunday, that his pedamobile was missing.

Twice before, police recovered the bike for him.

BLAME ENGINEER FOR 37 DEATHS

Rail Heads Place Responsibility in Missouri Wreck

PROBE IS BEGUN BY CORONER

Crews of Both Trains Summoned in Inquiry

SULPHUR SPRINGS, Mo. — (Associated Press.) — Eye witnesses were summoned today before a coroner's jury at Desoto, Mo., to recount details of the rear-end collision of two Missouri Pacific trains here Saturday when thirty-seven are known to have been killed and 128 injured.

Coroner Elders promised a thorough investigation of circumstances which caused the disaster, the worst train wreck in the history of this part of the country.

While Matt Glenn, dead engineer of the fast train which ploughed thru four coaches of the local train near the station, was blamed for the accident, according to the version of John Cannon, assistant general manager of the road, relatives of the dead and injured joined in demands for a thorough inquiry.

All day in this peaceful hamlet resembled a world-famous place of pilgrimage. Every minute brought more people to the village, relatives of wreck victims and many prompted by curiosity to visit the scene. All roads leading to the village were jammed with automobiles.

SIGNALS IN ORDER
The crews of both trains were summoned by the coroner to give their versions of the accident.

Officials of the road declared that the block signals were found to be in order after the crash occurred, and all were unanimous in their assertion that Engineer Glenn did not heed the warning signal.

Tales of many miraculous escapes were reported, mingled with stories of pathos and horror. Stories of young girls offering their assistance in caring for the injured and dead were numerous. Some were seen hurrying from one victim to another bandaging their injuries, washing their wounds and giving what assistance they could.

BOY KILLS SISTER

Girl, 11, Shot Thru Heart by Brother, 8, Near Canton

CANTON. — (United Press.) — Tony Marcelli, 8, and small for his age, shot and killed his sister, Jeanette, 11, today, at their home on the East Canton-rd.

Tony was shooting at birds with his rifle. His sister took it away from him. Tony went into the house, secured a .22 rifle, returned to the yard and shot the sister thru the heart.

"She made me too much mad," Tony told the officers at the jail where he is held for juvenile court. "It was too little to realize what he did."

Joe Marcelli, father of the child, is a mill worker.

STRICT SANITATION TO BE DEMANDED BY COUNTY HEALTHER AT THE FAIR

Strict sanitation measures will be insisted upon by Dr. J. F. Sutter, district health commissioner, at the fair here August 22-25, he announced Monday. Following a conference with Secretary G. Dale Cleman, the commissioner was told to proceed with any plans which will make the big annual affair safe for the crowds.

Concessionaires will be required to adopt stringent precautions. There is already among some of these persons and oftentimes the food they vend is unfit for human consumption, the county healthier stated.

Open water barrels in which ice has been placed will also be looked after and every effort made to encourage individual drinking receptacles. The old-time method of dipping the water out of the barrels will not be allowed, but the barrels will not be objected to in event they are covered and provided with spigots, Sutter said.

The people of the county as a whole have been enjoying remarkably good health, an epidemic may result, most any time, and it is safe-guarding can eliminate it, nothing will be left unturned that will prevent anything which may be regretted later, according to the doctor.

HARMON FOUNDATION MAN HERE FOR PARK SURVEY

Preliminary survey of the park and playground situation in Lima was made by C. A. Bingham, city manager and members of the park board, Monday.

Sites for playgrounds and for a swimming pool were inspected by the group, in an effort to learn the possibilities before the arrival of L. S. Duncan, playground adviser, Thursday.

Duncan is an employee of the Harmon Foundation, an endowed organization working for the advancement of playgrounds and recreation centers for the people.

Thru this survey of the foundation, Duncan is being sent here to confer with the local committee and to outline the work which should be done. Plans for its accomplishment will also be advised, it is announced.

TWO SPEEDERS DRAW FINES IN CITY COURT

Twenty-five dollars was added to the coffers of the city Monday, when two speeders were fined following pleas of guilty before Judge Motter in criminal court.

Manley Seals, 746 W. Market-st., was assessed \$15 for driving his car at a rate of 45 miles an hour at 10:15 a. m. Sunday. F. J. Parker was fined \$10 for driving his machine at the rate of 31 miles an hour on Elizabeth-st., the same day.

MAY WIN OUT IN SECOND PRIMARY

FORT WORTH, Tex.—James E. Ferguson was removed as governor of Texas in 1917. He was indicted for his handling of state funds. The bills against him were dismissed later, but out of a million the fight left him only a little better than when he left his home town of Temple. Also he was a party boiter.

A total loss, said Lone Star politicians.

Nevertheless, in the recent Democratic primaries, Ferguson ran a good second for the United States senatorial nomination against five rivals, all strongly backed, rich, influential. What's more, he may win yet, for the Texas law requires a run-off between the two leading primary candidates. This is still to follow, with Ferguson opposing Earl B. Mayfield, state railroad commissioner.

The ex-governor's platform is light wine and beer, soldiers' bonus, no poll tax, all the help he can give to the farmers and labor, and his position to the Ku Klux, who are said to support Mayfield, who does not call himself their candidate.

UPRISING FLARES IN PORTUGAL

Economic Problems B'ng About Alarming Situation

MANY HIGH OFFICIALS JAILED

Charged With Conspiracy and Holding Secret Meetings

LISBON—(Associated Press).—A rate of exchange alarmingly low and prices of foodstuffs exorbitantly high have conspired to make the cost of living in Portugal a serious problem. And profiteering as an additional factor cannot be overlooked.

Several highly placed state functionaries have been arrested and jailed, charged with conspiracy and the holding of secret meetings, which is an indication of an underlying political unrest. It is felt in some quarters that a military movement is in preparation, to act in case of a fresh outburst of the turbulent elements which brought about the political assassinations of last October.

The press is clamoring against the economic condition of the country, and Seculo vehemently exhorts the government to put an end to the speculation to which it chiefly attributes the increasing fall in exchange. The Minister of Finance is trying to raise an internal loan and has had conferences with several of the most prominent Portuguese bankers to this end. His efforts have not so far been successful.

One of the factors said to contribute to the situation is that, although exportation amounts to several million pounds, all this money is deposited in foreign banks instead of being paid out in the country. At the same time gambling in a barefaced manner. In London banks alone there is said to be over 25,000,000 Portuguese pounds which would greatly improve the rate of exchange if left here. The constant arrest of officers and civilians and the fact of the troops having to keep within barracks to be ready at a moment's notice, adds to the general unrest.

Epoca directs attention to the statement of the British Premier, Lloyd George calling upon the nations which owe England money to pay interest charges in 1920. This debt amounts to over 15,000,000, and the paper asks is the interest is to be paid when due.

"My Wife Is Now The Picture Of Health---We Think

TANLAC

is the grandest medicine ever sold," says G. E. Van Doren, 294 W. Albans St., St. Paul, Minn. Mr. Van Doren added that a few bottles of Tanlac

restored his wife after he had spent hundreds of dollars in vain on other medicines. Many have had similar experiences. Tanlac is sold at all good druggists.

MAKES SUCCESS IN MANY PURSUITS

MUSKOGEE, Okla. — William Snodgrass learned broom making as a boy. Preferring not to be tied all his life to that one trade, however, he learned piano tuning, too. It was for amusement that he began carving toys. At all three of these pursuits he is an expert, teaching them as well as following them himself.

But Snodgrass' main business is fruit raising. He has a model orchard of 400 trees and a vineyard of 600 vines. He requires no help to care for them, except during the

rush of picking. It was by tinkering with his own machine that he became a clever automobile repair man and at this occupation he makes considerable money when he can be spared from his other work.

Snodgrass superintended construction of a six-room bungalow he has just finished on a five-acre patch he bought for his aged parents, whom he supports.

Twenty-six years old now, he has been blind for 19 years.

A denser, tougher wall-board that withstands moisture

Carey BOARD

—makes walls that last!

WHEN you put up a Carey Board wall, ceiling, or partition, you are making a permanent improvement on your property. Carey Board lasts.

It is the only wallboard that has internal layers of asphalt to cement the plies together. This makes the board moisture-proof throughout. Most other boards are simply moisture-proofed on the surface.

CareyBoard has a high insulating value—it keeps heat out in summer, and cold out in winter. It resists fire. It deadens sound.

It will not crack. It will not chip. It is vermin-proof. Rats will not eat through it.

CareyBoard makes a beautiful finished wall—with a harmonious neutral color, or realistic wood finish. No paper or painting to pay for and renew.

Come in and get your sample. We sell any quantity—your local carpenter can apply it quickly without litter, muss or waste.

OUR COURTS AND JURISTS

IN the Democratic primaries, or rather in the judiciary primaries, these being technically without party, it is not out of tune to give expression. Few voters know or give thought to judicial candidates. It has always been our theory that judges should be appointed, and not elected. The judiciary is the last stand of democracy, being farthest removed from political connivance. We have known of none, and few in fact have been the instances, of judicial corruption.

Under our system of common pleas, court of appeals and supreme court the personnel of Ohio judges should be carefully considered. But the voter seldom does consider. Service is the best possible recommendation for a judge. On the ticket of Tuesday, Judge Phil M. Crow is a candidate for renomination. The only campaign made against Judge Crow is that he has made a good judge for many years, but should retire. That is sufficient evidence why the people should keep him on the bench, so long as his services are available. Judge Crow has every qualification, intelligence, discrimination, experience. He sits on a court of review, where the technique of the law is essential; where common sense is necessary, where precedent must be known.

As a Lima citizen, as a neighboring county product, as a known quantity, as a safeguard to justice, there is no seeming reason why a new face should be injected into our Court of Appeals. The party and the people of the judicial district, should and will return Judge Phil M. Crow to the bench.

AN IMPORTANT OFFICE

ONE of the most important state offices for which voters tomorrow will nominate candidates is that of attorney general. The necessity of having a high class lawyer in this position cannot be underestimated. For that reason, care should be exercised in voting.

This happens to be an office for which there are six candidates on the Democratic side. So far as we are able to learn, all of the aspirants have good records which would indicate that any one of them would be able to handle the office satisfactorily. However, there is one outstanding candidate in the list because of his past record and experience whose nomination would be a credit to the Democratic party. He is Garrett S. Claypool, former probate judge of Ross-co, a Democrat who has proved himself by his work in the state and a descendant of a long line of followers of this political faith. He is one of the leading lawyers of Southern Ohio. Democrats can make no mistake in supporting him.

"COMING EVENTS"

AN old saw has it that "coming events cast their shadows before." It's true.

One of the most pleasing manifestations of this saying at the present time is the indication that there are many more weeks or months there will be symptoms of a shortage rather than overplus of labor, as has been the situation for a long period.

It is confidently believed that the time is not far distant when instead of men seeking jobs, the jobs will be seeking the men, as was the situation during the war, when production was speeded up to meet a national crisis. It must not be understood that another such crisis is expected as necessary to produce a return of such conditions. Rather it will be the natural outgrowth of a rapidly developing state.

Progress has been at a standstill for a long time, industry has been stagnant and production has been practically nil. The action of the railroads in placing huge orders for

MAYBE HE WON'T JUMP AFTER ALL

equipment is indicative in a large measure of the reasonableness of such a deduction. Large stocks of manufactured goods stored away have been exhausted; industry must witness a revival. It is the natural order of things.

Indications aplenty are to be seen in Lima as well as in other industrial centers. Building is proceeding uninterruptedly, in anticipation of an assured revival of business. Factory owners are optimistic to a high degree. They have reason for such a state of belief. As the calm follows the storm, so it is inevitable that a period of prosperity and activity must follow one of the opposite state.

FEAR OF NEW THINGS

ACCIDENTS to the flying machine make a profound impression. That's because it is a new invention. It was the same with the first trains in the early days of railroading.

Many people now living said their prayers before they took their first ride behind the locomotive devil that burned cordwood and had side-brakes like a stagecoach.

People are afraid of anything new. That's why progress is so slow. Maybe it's a good thing, to keep us from trying too many of the crazy ideas of visionaries.

AS YOU LIKE IT

Some sit waiting for the door of opportunity to open while others climb thru the windows.

These are mad dog days. They may be mad over the price of bones.

HEALTH TALKS

Common Sense Ways to Keep Well

PLENTY OF EXERCISE

Remember how weak you felt after you had been laid up with that broken leg or sprained ankle? You weren't able to get any exercise; your muscles became soft and flabby.

Moderate exercise is absolutely necessary, to keep you in good condition, to throw off body poisons, to give vigor and an appetite.

It is not necessary to go in for cross-country running, or football or any other strenuous sport. Morning exercise immediately after arising will keep you toned up and ready for a full day's work.

When the alarm clock rings, hop out of bed, stand in front of the

Is Your Work Wearing You Out?

Are you working day in day out with a dull, dragging backache? Is your work slowly weakening your kidneys? Many kinds of work wear out the kidneys, and kidney trouble makes any work—hard. It brings morning lameness, backache, headache, dizziness, nervousness, and distressing urinary disorders. If your work strains your kidneys, help your kidneys with Doan's Kidney Pills. Workers everywhere rely on Doan's. Ask your neighbor!

ANOTHER LIMA CASE
John McGuff, 205 S. Pine St. says: "Heavy work weakened my back. I had a sharp catch in the small of my back, and a dull continuous ache had me in bad shape. Doan's Kidney Pills brought at Cunniff's Drug Store soon had my back strong and my kidneys acted normally."

DOANS' KIDNEY PILLS
60c at all Drug Stores
Foster-McBarn Co., Mfg. Chem., Buffalo, N. Y.

open window and stretch the muscles thoroughly. A few simple exercises may be gone thru. Anyone can stretch his arms and legs in various positions without detailed instructions. A few deep breaths and you are ready for whatever the day demands. If you are within walking distance of your work, by all means, walk. Walking is the commonest and the cheapest form of exercise and within the reach of everyone. The chief good of walking comes from the fact that it must be done in the open air. Because of this fact it might well be considered the ideal exercise. When you are walking, however, do it so as to be of distinct benefit. Walk with a full stride and swings the arms.

POEMS YOU WILL ENJOY

By BERTON BRALEY

HOBOS
We don't know where we're going, but we're on our way. The running board is cluttered with our stuff. The car is filled with baggage like a moving-draw. And we're fit for any travel, smooth or rough; So we're starting motor-tramping with an outfit made for camping And our destination's anywhere we please; So we can't say where you'll find us for we're left our home behind us, And we've locked the door and thrown away the keys.

We don't know where we're going, but we're on our way, And we aren't in any hurry as we go. When we find a place to linger that's the place we'll stay And when we weary of it, we will blow! We are off upon the highways and the quaint, secluded byways. We are eager for the sights that we shall see, There's the wife and little Mary and the dog and brother Harry And the baby of the family—and me!

We don't know where we're going, but we're on our way, And the top is down—we're not afraid of sun; We've changed from humdrum people into gypsies gay, And we're getting browner daily as we run. So we'll roam by lake and river in our sturdy little flivver, You can have your mighty "stixes" and your "twelves," For the sun and wind are calling and the road is simply crawling With some half a million others like ourselves! DEMOCRATIC PRIMARY ELECTION

Tuesday August, 8th

Your Support is Respectfully Solicited For

X J. H. GOEKE

Candidate For Nomination For

CONGRESSMAN

Political Advertising

To the Democratic Voters of Allen County:

As we approach Primary Election, Tuesday, August 8, 1922, we wish to impress upon you the importance of selecting candidates who will add strength to the Democratic Ticket in the November Election.

With this in view, we call your attention to the candidacy of Mr. J. P. Bowman, of Lima, for nomination for Sheriff, on the Democratic Ticket.

Mr. Bowman has been a voter of Allen County all his life, has always been an active and untiring worker for the Democratic Cause, and has never been an office holder.

He enjoys a large and favorable acquaintance in every part of the county, and this, in connection with his capability, will make him an unusually strong candidate in the November Election.

We earnestly solicit your influence and support in behalf of Mr. Bowman's candidacy.

Very truly yours,

BOWMAN PUBLICITY COMMITTEE

By E. H. Bates, Chairman.

Democratic Voters!

As most of you know, I am a

candidate for

CONGRESS

Illness in my family has prevented my seeing many of you. Most of you know me, as I have spent my ENTIRE LIFE in this county.

FOR ITS BETTERMENT

Have cut down forests, ditched lands and fenced and farmed them; labored on railroads, taught school, self in two colleges, taught school, etc. In the last twenty-five years, I have employed HUNDREDS OF LABORING MEN and paid them many thousands of dollars without a word of complaint.

If you will send me to CONGRESS I will apply all my energies to the best interests of humanity. In a spirit of fairness to them all. When you help me, you help yourselves.

Sincerely yours,

U. M. SHAPPELL

ABE MARTIN

We hope suspenders do some back for it there's anything worse'n woman powder'n her nose at ever' show window she comes to, it's a fellow yankin' his trousers up over' half back. Mrs. Kim Pash got almost downtown, 'fey before she remembered she had a hole in th' knee of her left stockin'.

ters. And who would be who and what he would do. 'Thinking of the philosophy of Epictetus, was put into great reason. And so, belowstairs to sour milk cakes, the best I ever did eat. Out, and thru the town, bowing to Dr. Oliver Steiner, the eminent and distinguished cuttist. And that of his noble brother, now agone to an earned and peaceful rest.

So, for a hike. Stopped to view a bit of harness, an unusual sight. In the window of E. B. Martin, the trunk man. The other evening while on the greater porch smoking a fag. There passed 53 automobiles, two motor cycles, a baby cart and one horse and buggy. No wonder my good friend Martin makes trunks his main line. There's C. C. Crossley, the original pioneer radio expert hereabouts. Esther Heffner, clerk of the criminal court. Learning to drive Pollick's cute Dodge sedan. And Timothy O'Brien, the general foreman of the B. & O., off on leave from hitting the ball too hard.

Lunched at home, on three tarts and a lamprey pie, a dish of anchovies and beaker of buttermilk. Out, and parked in a half block were 17 other cars and five Fords. Strange it seemeth, but meeting Carl Reis he explained, The Fords were all working, not loafing. Passed Don Baker, the retired kettle drummer and sleight-of-hand trap expert. Now selling El Versos and San

Felice. And Deputy-sheriff Ruth Calahan, first of her kind in the state. Bobbed hayre and wears a six in a concealed pocket of her short skirt. A bootlegger frynd pointed her out to me. In the afternoon over to Till's for a trim, but the place crowded with lazy men, there for likewise. So, will try again my sharpened everready blades. See in the pa-pers where my ocean acquaintance, my Lord Northcliffe, is ill unto death. Only last summer dined with him in his suite on the Aquitania, two bedrooms and baths, a reception room and verandah dining room. Paying \$4800 for six days of that suite. He is a modest man, dressed in a polo shirt, and lightweight tweed trousers. He served me a leg o' lamb, with potatoes, a salad and a sweet. All toted by a private waiter, his own for the trip. Then on the start of his world's gadabout.

This day my credit at the Lima Trust expired, and paid it off. In the evening, read again parts of The Little Lady of The Big House; and Susan Lennox, both I do much admire. And their authors never again to write. Wonder if there will be a Greenwich Village section for literary men over there; and a musical center, albeit few harpists are being bred; tho they may have shifted to victrolas and canned piano music by nowadays. So thinking of the past and fearing of the future, to bed.

self and looked up at him thought-
fully.
"Where's Mark?" he said.
"Mark? You mean Cayley?"
Anthony corrected himself with
a little laugh. "Yes, I mean Cayley.
Is he down?" I say, I shan't be a
moment Bill." He got up from the
bed and went on briskly with his
dressing.
"Oh, by the way," said Bill, tak-
ing his place on the bed, "your idea
about the keys is a wash-out."
"Why, how do you mean?"
"I went down just now and had a
look at them. Some were outside
and some inside, and there you are.
It makes it much less excit-
ing. When you were talking about it
on the lawn, I really got quite keen
on the idea of the key being outside
and Mark taking it in with him."

ADVENTURES OF THE TWINS
SIS SPARROW'S PRIDE IS
CURED
By Olive Roberts Barton

Nick had been watching Hungry
Hawk circling around in the air.
Nancy and Nick and Dr. Snuffles
were watching to see what Sis Spar-
row would do, now that she had a
bright red head and wings of black
and white stripes like Will Wood-
pecker's.
Sis had said she was tired of be-
ing brown, so that the fairy doctor
had kindly consented to use magic
and a little wild strawberry juice to
fix her up.
The first thing she did was to cut
her old friends,
The second was to forsake her
home under the granary roof where
her relatives lived.
The next thing was to be extra
sweet to all the aristocratic birds
in the neighborhood.
Dr. Snuffles sighed. "Pride goeth
before a fall," he said, shaking his
head sadly.
Nancy was indignant.
Sissy Sparrow was far nicer be-
fore," she declared. "She used to
take dust-baths in the road and mud
baths in the puddles and chirp

"Oh! oh, yes!" He looked slowly
round the hall, at the different
doors, and then smiled in a friendly
way at Anthony. "We both seem to
have been right, Mr. Gillingham. So
we don't get much farther."
"No." He gave a shrug. "I just
wondered, you know. I thought it
was worth mentioning."
"Oh, quite. Not that you would
have convinced me, you know. Just
as Elsie's evidence doesn't convince
me."

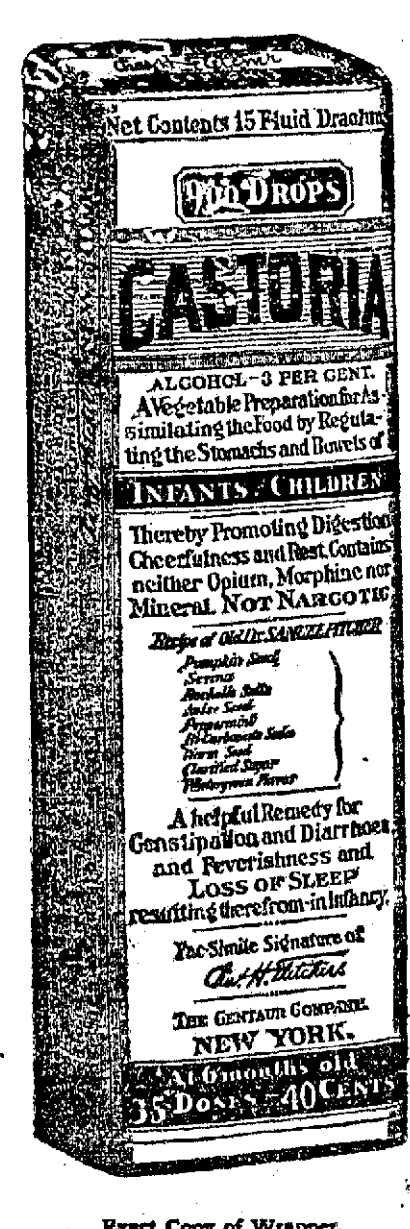

"Elsie!" said Bill excitedly. An-
tony looked inquiringly at him, won-
dering who Elsie was.
"One of the housemaids," explain-
ed Cayley. "You didn't hear what
she told the inspector?"
Cayley told them of what Elsie
had heard through the office door
that afternoon.

"You were in the library then, of
course," said Anthony, rather to him-
self than to the other. "She might
have gone through the hall without
your hearing."
"Oh, I've no doubt she was there,
and heard voices. Perhaps heard
those very words. But—" He broke
off, and then added impatiently, "It
was accidental. I know it was ac-
cidental. What's the good of talking
as if Mark was a murderer?" Din-
ner was announced at that moment,
and as they went in, he added,
"What's the good of talking about it
at all, if it comes to that?"
"What indeed?" said Anthony, ant-
to Bill's great disappointment they
talked of books and politics during
the meal.
Cayley made an excuse for leaving
them as soon as their cigars were
alight. He had business to attend
to, as was natural. Bill would look
after his friend. Bill was only too
willing.
"Let's go outside," suggested An-
tony. "I want to talk to you."
"Good man. What about the
bowling-green?"
"They came out of the front door
and followed the drive to the left.
The road bent round to the right,
but they kept straight on over a
broad grass plot for twenty yards,
and there in front of them was the
green. A dry ditch, ten feet wide
and six feet deep, surrounded it, ex-
cept in the one place where the path
went forward.
"Yes, it hides itself very nicely,"
said Anthony. "Where do they keep
the bowls?"
"In a sort of summer-house place.
Round here."

They walked along the edge of the
green—"Just in case anybody's in
the ditch," said Anthony—and then
sat down on the bench.
"Now then," said Bill, "We are
alone. Fire ahead."

THIS is a topic we all hear now-a-days because so many people are inclined to
exaggerate. Yet has any physician told you that we claimed unreasonable
remedial properties for Fletcher's Castoria? Just ask them. We won't answer it
ourselves, we know what the answer will be.
That it has all the virtues to-day that was claimed for it in its early days is
to be found in its increased use, the recommendation by prominent physicians, and
our assurance that its standard will be maintained.
Imitations are to be found in some stores and only because of the Castoria
that Mr. Fletcher created. But it is not the genuine Castoria that Mr. Fletcher
Honestly advertised, Honestly placed before the public and from which he Honestly
expects to receive his reward.

Children Cry For Fletcher's CASTORIA

Special Care of Baby.
That Baby should have a bed of its own all are agreed. Yet it
is more reasonable for an infant to sleep with grown-ups than to use
a man's medicine in an attempt to regulate the delicate organism of
that same infant. Either practice is to be shunned. Neither would
be tolerated by specialists in children's diseases.
Your Physician will tell you that Baby's medicine must be pre-
pared with even greater care than Baby's food.
A Baby's stomach when in good health is too often disarranged
by improper food. Could you for a moment, then, think of giving to
your ailing child anything but a medicine especially prepared for in-
fants and Children? Don't be deceived.
Make a mental note of this:—It is important, Mothers, that you
should remember that to function well, the digestive organs of your
Baby must receive special care. No Baby is so abnormal that the
desired results may be had from the use of medicines primarily pre-
pared for grown-ups.
MOTHERS SHOULD READ THE BOOKLET THAT IS AROUND EVERY BOTTLE OF FLETCHER'S CASTORIA
GENUINE CASTORIA ALWAYS

Monday

Ready-to-Serve

Crisp, delicious, oven-baked, filmy shreds of
whole wheat, salt-free and unsweetened—

Shredded Wheat

Sun and soil produce nothing so good for man as the whole
wheat—but you can't eat raw wheat—it would only be par-
tially digested. Shredded Wheat is the whole wheat boiled in
steam, drawn into filmy shreds
and baked a crisp, golden
brown. A Summer joy to the
busy housewife.

Two Biscuits with milk or cream make a complete,
nourishing meal. Eat it for breakfast with sliced ba-
nanas or prunes; for lunch with berries; for dinner with
sliced peaches, apricots, stewed raisins, or fresh fruits.
Ready-cooked, ready-to-eat.
Made only by the Shredded Wheat Company, Niagara Falls, N. Y.

FOR SKIN TORTURES

Zemo, the Clean, Antiseptic
Liquid, Just What You Need
Don't worry about Eczema or other
skin troubles. You can have a clear,
healthy skin by using Zemo obtained at
any drug store for 35c, or extra large
bottle at \$1.00.
Zemo generally removes Pimples,
Blackheads, Blisters, Eczema and Ring-
worm and makes the skin clear and
healthy. Zemo is a clean, penetrating,
antiseptic liquid. It is easily applied
and costs a mere trifle for each applica-
tion. It is always dependable.

BAXTER, O'DOWD BOTH CONFIDENT OF WINNING

Will Fight Tonight

PHIL O'DOWD and Don Baxter were each confident yesterday after looking each other over that the goddess of boxing fortune will guide their mitts when they meet tonight at the ball park in a feature of a 38-round Moose card.

O'Dowd arrived from Columbus Sunday and showed to advantage before the baseball crowd at Murphy-st. Baxter did a little work—just enough to put him in a fighting mood—and pronounced himself in the best condition ever.

Baxter will be meeting one of the best bantams in the country, a boy who is menaced in the same breath with Joe Lynch, Pal Moore and others.

SHEDD LOOKS GOOD

Leo Patterson, the colored lightweight champion, was forced to admit that Young Shedd, the youth who arrived today from Cincinnati to scrap him in the other ten-round bout of the double windup, may give him one of the toughest battles of his career.

Shedd is in perfect trim, but in no way excels the condition of Patterson.

Joe Thomas and Ted White are on deck. White seemed inclined to doubt Thomas' ring prowess, but critics here predict the bout will afford all kinds of thrills. It is scheduled to go eight rounds.

MUCH CONFIDENCE

Kid Brown and "Dutch" Klinger are abundantly imbued with youthful confidence. The fight is a six-rounder. Two small chips will put on a certain raiser.

The fighters congregated this afternoon at the office of Dr. V. H. Hay, examining physician of the boxing commission, weighing in as per schedule.

A large attendance is forecasted.

Exterminator Has Been Retired

EXTERMINATOR

EXTERMINATOR is thru. The famous old "iron horse" of the running track has run his last race.

This followed his disappointing showing at the Saratoga handicap when he ran last in the field.

"I probably will not ask him to compete again," says his owner, W. S. Kilmer. "He's done all and more than can be expected of any horse."

Exterminator has the remarkable record of winning 43 times out of 53 races.

There is only one horse in the history of the American ring with more wins than Exterminator. His last victory, the Brooklyn handicap, set his takings above the \$215,000 mark.

Man o' War showed a winning of \$240,000.

Lima Biffs Trojans

REjuvenated by the addition of a brand new battery and a first sacker, Bernie Halloran's Independents recovered their independence yesterday at the yard, carrying off the second of a series of three games with Troy, thus evening matters. The score was 8 to 2.

Reichard's bats started like a house afire, but after Lima forged a run ahead in the second and third innings and had rung up five runs on seven bingles in the eighth, the downcasters did not have the stuff to come up from behind.

Varley, shortstop for Troy, led off with a single in the first and scored on Keratine's double. The latter counted a moment later with the final Trojan tally. After that little splurge Earl Berry clamped the lid down tight. He put up a wonderful exhibition and the fans heaved many and prodigious sighs of relief that now the pitching worries have ceased.

SEALTS STAR

Frank Sealts held Berry up in league form and himself contributed a pair of bingles to the victory. Sealts has been playing regularly in the Business Men's league and is in good condition. No stolen bases were registered off his arm.

The Halloran clan began run-getting in the second when Danny O'Connell drew a walk and went to second on Sealts' hit. Crohan hit a slow grounder which was muffed up by Babb and in the interim Danny breezed across. In the second frame Bible walked, pliffed second and crossed over on Hetzel's error. Nichols reached first on a fielder's choice, was sacrificed to second by Gaberah and tallied on an error by Varley.

GOOD FIELDING

Defensive playing of both sides was fine until the eighth, several double plays and good catches in the outfield taking place. The Independents sowed up the game in the eighth, when seven hits, an error and a sacrifice fly produced five runners. O'Connell, Sealts and Bible doubled and Berry demon-

strated his hitting prowess by putting one over the right field wall for three stations.

Shortstop Varley was the star among the visitors. His fielding was of the sensational order.

POLICE COP

The Lima police department club came back at Harvard for a defeat early in the season by trimming the team representing that village by the score of 7 to 0. Don Ross was too much for the visitors and held them at his mercy through. Score: TROY 8; LIMA 2.

MUTT AND JEFF—JEFF'S CAR IS LESS THAN ONE DOG POWER—

By BUD FISHER

BRINGING UP FATHER—

—BY M. MANTON

SHORT SHAVINGS

A. L. Fisher, dealer in washing machines, expresses the conviction based on long experience in business, that a clean business card makes the best impression on the person to whom it is presented.

"The name is sufficient identification," he says, "Thumb print records on it are superfluous."

Remember when you were a boy, you used to set up a row of dominoes one behind the other, tip over the first one and watch the line fall? It's a great game. But don't try playing it with an auto warns Robert Gels.

Gels was engaged in getting his auto parked behind a row of four machines. A street car sneaked up while the rear of the auto still was partly on the car track, and bumped into him.

The machine was pushed forward a few feet into the machine at the rear of the line of parked machines. The car was pushed into the one in front of it, and so on, until the bump was communicated to the first machine.

The driver just had entered that machine to start away. The bump knocked his straw hat off.

Platform orators like to call attention to the fact that the world is shrinking for the people of today, as inventions eliminate distance.

That fact is particularly brought home to the owner of radio stations. The other evening Professor Collins of Lima High School was listening in on his radio set, one of the most completely equipped stations in the city.

He picked up a conversation between the Catalina Islands in the Pacific and a ship on the Atlantic. The conversation was being carried on direct, but was being relayed thru one of the powerful sending stations on the Atlantic coast.

Collins heard the ship in the Atlantic call attention to the fact that it was already dark.

The Pacific station answered that the sun still was shining there.

SPEEDERS MAY DETECT MOTOR COPS BY RADIO!

BY PAUL F. GODLEY
America's Foremost Radio Authority
Motorists! Detect the speed cop. By radio.

No less an authority than Marconi suggests the method.

It really can be done. Besides, it is very interesting for it brings to the general attention a problem with which aviators have been wrestling a long time.

The ignition system of any gasoline engine acts as a radio transmitter. The length of the wave which a car or motorcycle sends out differs with each make of car, for the wiring and capacities of the circuits are seldom the same for any two makes of engine.

In connection with his radio work at very short wave lengths—one to fifteen meters—Marconi says that passing motor cars caused great trouble and interference during the experiments. Unfortunately for him the apparatus had been set up at the expense of considerable time and trouble near a main highway. When all the equipment had been put into operation, it was discovered that each time a motor-driven vehicle came within a half mile of the station, all experimenting had to stop.

Before long, the operators learned to tell the make of the car long before seeing it.

The "call" of the motorcycle cop was particularly easy to discern. Even with sensitive receiving outfits built to tune in on much longer waves, the presence of a motor vehicle near the antenna is easily perceptible.

Where radio outfits had been installed on airplanes, great difficulty was found in overcoming the interference caused by the ignition system on the plane. This was finally accomplished by carrying all wires

within copper tubes which were grounded to the frame of the machine wherever possible.

If radio equipment is to be installed on autos, motor boats, gas-driven vessels, and the set used while the engine is running, the same expedient will have to be resorted to.

TIP TO COPS

In most cases, the "armored" cable which is on the market will serve the purpose.

And therein lies a way out—for the motorcycle cops.

By shielding the wiring of their machines they could prevent detection.

But the odds are still on the motorist.

If he's a good radio fan and has a keen ear, he'll be able to sense his Nemesis half a mile away!

RADIO PRIMER

COEFFICIENT OF COUPLING—the ratio of the mutual inductance of two circuits to the square root of the product of their self-inductances. The coupling is thus spoken of as a 5 or 10 per cent coupling or more. It is generally called weak when below 5 per cent, and strong or closed when more than 10 per cent.

OFFICER DECORATED
CAMP PERRY—Lieut. Col. William Martin, 148th Infantry, 73rd brigade, was decorated with a Distinguished Service Cross by Brig. Gen. John R. McQuigg.

LIGHTNING KILLS TWO
STUEBENVILLE—The bodies of Joseph Berdenn, 18, and Nicholas Masculina, 24, union miners of Adena, missing since Thursday, were found beneath a tree. Death resulted from being struck by lightning, the coroner said.

WOR HAS WOMAN ANNOUNCER

Station WOR at Newark, N. J., boasts of having the only woman broadcast announcer in the country. Radio fans know her as J. E. K. Her name is Miss Jessie E. Koeing. The instrument into which she is talking is the latest form of microphone made.

Resinol
does wonders for
poor complexions
Underneath most unattractive skins
is a clear, pleasing complexion—all
that is needed is the proper treatment.
It is surprising how often a brief use of
Resinol Ointment and Resinol Soap
will clear away blotches, redness and
roughness and give the skin its natural
freshness and charm.
If your skin isn't just what you want it to be, ask
your dealer for Resinol Soap and Ointment.
